Month June 1905

SUBJECT.

File relating to the Construction of a stone in on the northern banks of the Kaveri river at Sri Rangapatanam, in memory of H. H. the late of Mysore.

PREVIOUS REFERENCES. LATER REFERENCES.

MUZRAI DEPARTMEN

NOTE FOR ORDERS.

Subject :— In favour of Dy Commissioner's letter no. 620 dated 6th February forwarding information regarding a Shanmanta at Srirangapatnam, regarding which, Mr. K. Shamiengar has preferred a claim.

In October 1901, Mr. N. Narasimha Iyengar Advocate, addressed a letter to the Executive Engineer, Irrigation Division, on behalf of Mr. K. Shamia

— a Khandaitan Knight)

later to the Wife of the

late S. Venkataramayyar

— at was he her (Ex Enquiry)

ad dismantled without

notice to and without the

consent of his client, the

Building which was situated

in the Bank of the Cauvery

at Srirangapatnam, and

which belonged to the estate

of the said late S Venkata-

ramayyar, he (Ex Enquiry)

was held liable to pay to her

by the Sum of Rs. 9000/-

as damages.

The Executive Engr.

appears to have entrusted

the Dy Commr of the Province

District, through the
Subdy Engineer, Western
Circle and the latter in
reply wrote to the Dy Comr
Asst Subdy Engr
that, after correspondence
between his office and the
Ex: Engr Amrch-Rocks Division
no satisfactory explanation
was elicited as to why
the mountings were dismantled
before taking action under
the Land Acquisition
Regulation; and that the
Revenue Sub-Div Officer
had been requested to
settle the question of Compen-
-sation under the Land

The Supdg Engineer

appears to have addressed

the Chief Engineer on the

subject. The letter ~~[illegible]~~

addressed his Office on

the 22nd November 1907,

enclosing copies of the

Advocate's notice to the

Ex: Engineer and of the Dy

Comr's letter to the Supdg

Engr, referred to above,

and observed that the

late Sir K. Sheshadri Iyer,

under whose orders the

at the Bathing Ghat

mantaps were dismantled,

was apparently under

the impression that they

were Guard-Buildings and

that

that therefore there was no alternative but to pay such compensation as the Revenue Department might settle under the above Regulations.

4. This letter was personally submitted by me to the Dewan during the Xmas holidays, and under his verbal orders, information on the following points was called for from the Dy Commr :-

(i) The condition of the stone mantlish in question at the time when it was dismantled

(ii) Its dimensions

(iii) The purpose it was

being used and whether

the founder had left-

any documents regarding its

~~the~~ construction and the

purpose for which it was

built-

(iv) Whether the municip

board not- been handed over

to Govt- after its construction

and (v) ~~As~~ any other

details regarding the

same -

(5) The matter having been

referred to the Revenue Sub-

Div Officer of Gumla-Rocks,

by the Dy Commr, the

former in reply, states

(i) that- according to the

Panchayat-dars, there was originally a structure of 14 cankmans built of stone roughly estimated (without data) at about Rs 200

(ii) Hand-le (the Sub-Dr. Offr) was of opinion the mountain deities attributed apparently to charitable purposes were built on the Bank of the Canmany which is Govt-Land, could not be looked upon as the private property of the persons who originally built it or of his descendants.

(iii) Hand-le the mountain

which was evidently

intended for the use of

the public at large, and

because a mosque recently

known after the public have

allowed to use it,

(iv) Head-quarters Shunnigan

seems to have represented to

Govt. that the Mantab

might be rebuilt in some

other convenient place.

and (v) Head it therefore

seems enough if Govt.

will bind it a similar

mantab close to where

the dismantled mantab

stood for the use of

the public.

6. The Hy Commissr

in submitting a copy of the Sub-Div Officer's letter as well as the Manager etc from the Tondiarpet,

* Letter no 620 dated 6th July 1902.

* adds in his report that the descendants of the late Munsiff Timmanniengar, after whom the mantap was named to take the Ranga-nathaswami deity in procession to the said mantap every year on the 15th of Avani increase in the month of Vaikasi and celebrate the Manta-tapatsavam there; that it is not known when the

Mauritzh was constructed

that the mountain is

reported to have been in

good condition at the

time when it was dismantled;

that this is all the information that could be had from the

and that one other available references

Ramaswamiengar has

petitioned to him bringing

stating that the compensation

should be paid to him,

and not to Mrs Shamiengar,

in view to construct a

similar mantap and

dedicate the same to

the public.

Submitted

27/2/02

(Ref. with Rep.)

Subject to Decree

To evidence a put forward to show that the original donor retained any right of ownership over the building which he caused to have dedicated to the public. He can therefore have the right to claim any compensation. It is but fair however that the building which has been dismantled, should be restored in a suitable manner. This may be done with the aid of the materials which are now lying on the spot and with some funds from Govt. To that end, an estimate and plan may be called for.

The Dr[illegible] may be asked to communicate the above views to the Advocate who represents M[r] K Ramaswamy Iyer, and also to M[r] Seshu Ramadoss Iyer, who also has claimed compensation

VA 27 2 02

The cost of the work cannot be anticipated & the personal liability of the Officers concerned cannot be avoided unless there is a written order of the Collector K. S. Dist or other competent authority. Further note & explanation must be submitted by the D.O.W.

In the meanwhile please estimate also for the work called for as suggested by the Dy Secy

13.III.02

Recd 15/3/02
Put up a draft to D.F.M.
15/3/02

Note continued:—

The above order of the Director was communicated to the Chief Engineer in this Office Letter No 1535 dated

27th March 1902 and a copy of the same was also sent to the Dy Commr of the Mysore District.

In reply, the former reports that there is no doubt that the work was undertaken under the verbal orders issued by the late Dewan, who was apparently under the impression that the mined mantapams were Government property. He has also submitted a project of Rs 1450 for reconstructing a mantapam on a new site marked B in the accompanying tracing.

Submitted

Subd to the Dewan.
I think a new mantapam may be constructed at a cost of Rs 1450 &c.

Mr. Shamiengar now in his let
No 6438/8369 of 27th February 1905 complains
that the mantap is being built up in
front of a burial ground and states
as follows :—

Sometime back the late Duggappiah
Assistant Engineer had selected a site
immediately to the east of the Sopan
and that the site has been appropriate
for some other mantap. The object of
the Mantap is to take the God Sri
Ranganathaswamy and worship once
in a year in that building. If the
building is built on the present spot
it is objectionable to convey God and
worship near the burial ground.
The site was selected be complainis with
consulting the owners. If the mantap
is built on this ground he & his friends
& the family decline to take charge of it
The owners of the burial ground may

dispute for God's procession in front of
the addressed the Executive Engineer,
Mysore Division on this subject who
informed him that the site for the
mantap was approved by the Dy.
Commissioner and that it is too late
to make any change -

Mr Shamenga now prays that orders
may be issued to the Executive Engineer
to stop the work and build the mantap
little further to the west of the present
site avoiding the frontage of the ~~
burial ground. -

Devaswom order on the DC's report in connection with the bathing Ghaut at Srirangakalam

---

The question of this bathing Ghaut requires serious consideration and further progress may be stopped for the present. I shall be glad to be favoured with the views of the Devaswom on the suggestions now made by the Dep. Com. When I visited this locality a few months ago it seemed to me that the people were not very keen about it. They seem to prefer the bathing Ghaut the improvements of which is now suggested by the Dep. Com. He may be asked to ascertain the people's wishes and com-

enquiries and send a full and
final report in this matter.

Inspection Note.

I inspected the Bathing Ghat and connected works at Seeranegapatam.

I. Dharma chattram.

The Sanctioned provides 16,812/- for this work of which nearly 7000/- has been expended already. The ground floor has been nearly completed and the first floor is in progress. The Dharma chattram supplies a long felt want and may be completed early as per Sanctioned plan.

II Bridge.

Provision of Rs 10,009/- is made for this work and Rs 8023 have been expended

already. The work is practically completed with the exception of parapat walls &c and calls for no further remarks.

The Dewrie people are very desirous that two road ways may be formed on either side of the bridge so as to afford easy access to the several Mantapams along the River Bank where they have to carry provisions &c in carts for charitable feeding on important occasions, and this item of work which may not cost more than Rs 200/- will if carried out be much appreciated by the people.

III Mantapam & Bathing Ghat

Rupees 31,602/- has been provided for the Mantapam and Rs 13,500/- for the bathing Ghat Nothing has yet been

shout from the latter amount but out of the former provision of Rs. 31,602 for the mantapam, not more than Rs 1000/- or so has been expended in excavating the foundations &c. The work of construction is yet to begin and the question of Site is in my humble opinion deserving of serious re — Consideration. Except during the flood season the river narrows itself to the centre portion of the bed, and old stone platforms, may be seen here and there close to this portion of the bed which is resorted to for bathing purposes during the greater part of the year. The distance from this bathing place and the Site selected for the proposed mantapam and the platforms is a little

more than 200 feet, which
experience shows is prohibitive.
The Mantapam, if erected
on the proposed site, will
therefore be practically
useless to people, bathing
in the current which is confined to the middle of the river
during the hot season. To
remedy this serious defect,
the ~~mid~~ mid stream has either to
be ~~diverted~~ diverted, so as
to bring the water close to the
existing bathing ghat or the
site of the Mantapam will have
to be shifted close to the
said ~~mid~~ mid stream. Some of
the townspeople are in favor
of the former alternative,
but after consulting competent
persons and giving my
best consideration to the
subject I am of opinion
that this proposal is far
from desirable. The bed &

the river about the region of the existing bathing ghats is rocky, and the workmen employed on the work will not be required in more than 2 feet of water in some places and even less in others and there is also the probability of water stagnating between the rocks, which would therefore render bathing unhealthy.

The latter of the two alternatives above referred to seems to commend itself to most people.

The mantap need not be bigger than 31 feet square, and the stones of a dilapidated mantap of these dimensions are ready to hand in the Compound of Sri Narasimha Swami temple at Sreerangapatam. These stones may be

utilized for the proposed
mantap, and a causeway,
12 feet wide with a sufficient
number of ~~vents~~ vents, may be
constructed, so as to afford
easy passage from the
existing bathing ghat to the
proposed mantapam site.
The mantapam would then be
useful not only to people
bathing in ~~mud~~ mid-stream, but
also serve the purpose of
mantapotsavam on important
festive occasions for Sri
Ranganatha swamy

The proposed mantapam
and cause way may be
on the model of those now
existing in the bed of the
Kapila River near Nanjan-
gud and in the bed of Cauvery
at ye Datore

If this proposal meets with
acceptance, there will be perfect,
enable savings

in the estimated expenditure, and part of this saving may be usefully employed in repairing the existing bathing ghats on either side of the proposed line of Causeway ~~Causeway~~ and also in improving the present much frequented passage to the river leading from the northern dock gate known as the "Hullay diddé" This passage through Stone is in urgent need of improvement and only recently a poor woman fractured her leg in going across to bathe in the river.

Deputy Secretary to the Government of Mysore

Muzrai Department.

Sir,

With reference to your letter No.312/Muz 26-96 dated 26th August 1901,I have the honour to forward the sanctioned project for the construction of the Bathing Ghat and Chattram at Seringpatam,and this office file of correspondence connected therewith,together with a statement of outlay incurred on the work to end of July 1901,as therein requested.

2. As regards the authority under which the stone Mantaps at sides and rear of the Sri Lakshmi Narasimhaswami Temple at Seringapatam are being dismantled,and the stones utilized for the Ghat work,attention is invited to paras II(1) and III(3) of the Palace Division Executive Engineer's letter No.72 dated 18th March 1900 (marked by slip C in the file) containing proposals for utilizing the stones,pillars etc, of the Mantaps.That letter was sent up to Government with the estimate,which contained a lump sum provision of Rs.1,000 for dismantling the Mantaps and removing the stones to the site for the Bathing Ghat.It will be seen from the statement of outlay referred to above,that a sum of Rs.684-14-9, has already been expended on this item.

3. Attention is also invited to the Palace Division Executive Engineer's ~~Lxxxx~~ No.158 of the 21st instant,reporting that the late Dewan Sir K.Seshadri Iyer personally proposed on the 9th September 1894,on his inspection of the Sri Narasimhaswami Temple,that the Mantapam, a portion of which was in a very dilapidated state,may be dismantled and used in the construction of

the Bathing Ghat referred to above.

3. Enclosures to be obligingly returned, when no longer required.

---

Has the honor to inform that no orders or D.O letters on this subject are

forthcoming in the records
of this Office. In submitting
the Estimate for the Battery
Shri Mr. Nagaswami Iyer
who officiated as Ex Engineer
proposed in his reports
Nos 214 of 31-8-99 and
72 of 18-3-00 to dismantle
this Mantapam round
Sri Lakshmi Narasimha
Swami temple and
utilize the pillars &c in
the Construction of the Shed
but does not quote any
authority.

The late Dewan Sir
K Seshadri Iyer on the
7th September 94 personally
proposed in his inspection
of Sri Varadharaswami
temple at Srirangapatam,
that the mantapam, a portion
of which was in a very dilapidated
state may be dismantled
and used in the Construction

of

a Bathing Ghat at
Srirangapatam.

sd/B. Raghavendra Rao
Ex. Engineer
Palace Dn
Mysore

Extract from the Executive Engineer's (Palace Division) Letter no 72 dy 18th March 1900.

Para II The approach Bridge.

(1) To the small bran of the river that comes between the river bank a the Elephant site, I had previously proposed ~~a~~ an arched bridge of 3 Vents of 30' span - No a Mantapam design for the bridge is prepare a and submitted, as per instructions given. The pillars beams & capitals that will become av if the Mantapam near the Narasimhaswamy tem, were removed will be utilized for this bridge

as far as possible. The length of the bridge between the 2 abutments will be 96 feet and there will be 15 Vents & 16 pillars whose distance between Centre to Centre of each will be 6 feet

III (3) Bathing Ghaut

The Masonry in the foundation and basement is proposed to be of size stone in mortar with facing of cut stone, as in the previous design. The interior filling between size stone walls will be of Concrete in Surki mortar. The stones available in the Mantapam round Narasimhaswamy temple will be utilized for this work also. As in the previous design, the side wings will be converted into 2 Halls for the use of the Royal party when they visit bus introducing

2 doors on each side and windows in the outer screen walls - There will be also 2 rooms at the northern most end. ~ provided for the Conservation of Gods Ganesa & Anjaneya there, the one facing the east and the other the west. There will be Vimana domes constructed over the rooms intended for the Gods, one in each side wing and also a Vimana dome in the centre of the main Mantapam -

(4) The cost of this alternative project for the Ghat comes to Rs 44,366, while the previous design was estimated to cost Rs 64,832 -

(5) The savings effected may be utilized for improving the existing steps above & below the Ghat side for a length of 50 feet on each side -

Enclosure No.

Sir,

I am instructed by Mr. K. Shama Iyengar, Retired Sheristadar Superintendent and Executor to the will of the late Mr S. Venkatrangaiengar to give you notice, which I hereby do, that as you have dismantled without notice to and without the consent of my client the Building which was situated on the Bank of Cauvery and which belonged to the estate of the said late S. Venkatrangaiengar, you are hereby held liable to pay to my client the sum of Rupees 9000/- nine thousand, being the value of the said building as damages to which he is entitled.

You are further requested to take

take notice, that if you do not make the payment of the aforesaid amount within sixty days, from the date of the receipt of this notice, legal proceedings will be instituted against you, without any further notice for the recovery of the amount and you will incur all the costs of such proceedings

I am &c
(Sd) K. Narasimha Iyengar
Advocate.

Letter No: 118 Dt 5th Nov: 1901 from the Deputy Commissioner Mysore District, to the Supdg: Engineer, Western Circle

Sir

Adverting to your letter No: 3778 of the 1st instant, re the compensation claimed by Mr Shama Iyengar, late Khedda Superintendent for a stone Mantap at Seringapatam, dismantled by the Contractor P.W.D. Deptt, I have the honour to state that after correspondence between this office and the Executive Engineer, French Rocks Division, no satisfactory explanation was elicited as to why the Mantap was dismantled before taking action under the Land Acquisition Regulation. The Revenue Sub Division office has been requested to settle the question of compensation under the said Regulation. A reminder has been issued to him this day.

I have &c

OFFICE OF THE DEPUTY COMMISSIONER.

MYSORE DISTRICT.

Dated Mysore 6 February 1902.

To

Dewan Bahadur Seshayya Esq^r

~~The~~ Secretary to the Government of Mysore,

Mysore ~~General and Revenue~~ Departments.

Sir,

Adverting to your docket No 1039 dated 15th January 1902 forwarding Copy of letter No 6103 of the 22nd November 1901 from the Chief Engineer of Mysore and Calling for certain particulars relative to a stone mantap at Seringapatam regarding which Mr. Shamaiengar has preferred a claim, I have the honor to reply to your queries as follows:-

(i) It is reported that the mantap was in good condition at the time it was dismantled.

(ii) The structure consisted of 14 Arkanams built of Stone dimensions and others details of which are given in the Maharzar accompanying the file of records Connected with the

the Case (vide Ferish no. 3/3)

(iii) The descendants of the late Munsif Thiruvappaiengar after whom the mantap was named used to take the Ranganatha Swamy deity in procession to the said mantap every year on the 15th of moons waxing in the month of Vaisakh and celebrate the mantapothsavam there. The above is all the information that can be gleaned from the available references. It is reported that it is not known when the mantap was Constructed.

(iv) Vide answer to question (iii).

I beg also to state that one Sethuvir Ramaswamaiengar has petitioned to me bringing to notice that as the mantap in question was built by his grandfather for Charitable purposes, the Compensation should be paid to him and not to Mr. Shanmaiengar, Executor to the will of the late Venkataranga-Ayyangar who has no manner of Right to the property in question. S. Ramaswamaiengar

proposes to construct a similar mantap and dedicate the same to the public if Compensation be paid to him. The petition herewith accompanies.

Copy of the French Rocks Sub-Division officers docket No 487 of the 11th January 1902 reporting on the facts of the case in reply to a reference made from this office previously to the receipt of your requisition is also herewith sent together with the remainder papers bearing on the subject.

I have the honor to be,

Sir,

Your most obedient servant.

H. Chamberlain

Hg Deputy Commissioner.

Mysore District

1902

From
M. Venkata Rao Esq^r
Sub Division officer
French Rocks

To,
A. Ramanujacharyar Esq^r
offg Deputy Commissioner
Mysore District

Dated 11^th January 1902

no 487

Encl^o 1^st 11

His docket No 164 dated 28 December 1901 in re the Settlement under Land Acquisition Regulation of Compensation claimed by M^r K. Shamacharyar late Khedda Superintendent in respect of a Stone mantap at Seringapatam.

With reference to the above, have the honor to State in reply that the Amildar of Seringapatam reports that according the Panchayetdars there was originally a structure of 14 ankanams built of Stone the estimated value of this, is not mentioned and the Panchayetdars plead inability to fix it. Indeed it is no easy matter to do this

When the Obstructive shall be upon existence
Mr Amildar says that some of the masons
and bricklayers whom he consulted are of
opinion that the mantap might have cost
about 2000 fs but an opinion of this kind,
formed evidently without satisfactory data
cannot carry any great value. The Amildar's
report with enclosures is forwarded in original

In the undersigned opinion the mantap
dedicated apparently to charitable purposes and
built on the bank of the Cauvery which is
Government land cannot be looked upon as
the private property of the person who origi-
nally built it, or of his descendants. The ori-
ginal builder would not have been permitted
to build a mantap on Government land if
he intended to break it as his private property
and said so to Government.

The mantap was evidently intended for
the use of the public at large and as such, it
became a mirasi property soon after the
public were allowed to use it. Mr Shanmuggar
perhaps does not mean to claim any Com-
pensation for the removal of the said mantap

f Government as for a private property. As
to he seems to represent to Government i
- mural Department is that the mantap
ich for a charitable purpose by his ancestor
hich was removed by Government, ought to
ebuilt in some other Convenient place. It
erefore seems enough if Government will
Similar mantap close to where the dismant
led mantap stood for the use of the public
nd other purposes for which the latter had been
ith -

3) Further from Copies of correspondence
received with the docket under reply it would
appear that the estimate for the construction
the Bathing ghat said to have been prepared un
orders of the Devasthanam, by the Executive Enginee
Palace Division, provides for the dismantlin
of the mantap. This fact perhaps would ma
it desirable that orders of Government
regarding the Shamanigara present claim
should be obtained, before further inves
-gation into it, is undertaken -

4. If proceedings have to be taken in
matter under the Land Acquisition Act Es
Sanction would seem to be an indispensa

preliminary measure, and the undersigned would therefore suggest to the Deputy Commissioner in need to secure such sanction in this case.

To,

The Chief Engineer
of Mysore

Sir,

With reference to
your letter No 6103 dated
22nd November 1901 in the
matter of the claims preferred
by Mr Shanciengar, over the
stone Mantapams at the
site of the Bathing Ghaut
at Sreerangapatam, I
am directed to state
that the act of dismantling
the Mantaps in question
cannot be justified and
the personal liability
of the Officer concerned
cannot be avoided
unless there is a written
order of the late Sir. K.
Sheshadri Iyer or of the

competent authority,
and to request therefore
the submission of a
further note and explanation
for orders of the Dewan-
2. It is but fair
however, that the buildings
(the stone mantaph in question)
which has been dismantled,
should be restored in a
suitable manner, utilizing
for the purpose, the materials
which are now lying on
the spot. To this end,
I am to request the submission,
at an early date, of an
Estimate and Plan

I have &c

(Dewan's order)

E. McNeill Campbell
Chief Engineer of Mysore

Commissioner Kolar Dist:
Bowring & Lewis, Bangalore Depot:

Adverting to your letter No 1535/Misc F 96-9 dated 9th instant last, I have the honor to forward the enclosed report No 1895 of the 9th instant from the Chief Engineer Kolar Circle, and to inform you that under the circumstances therein represented, in those proceedings referred to in para II & III of the office No 5264 dated 25th September 1901 and para II, the office No 6103 of 22nd November 1901, I concur in the opinion expressed by Captain de Vitkowsky that the Executive Engineer was not to blame in the matter. There is no doubt that the work was undertaken under the verbal orders issued by the late Deputy Commissioner that the ruined Mandapams be reconstructed forthwith

I am requested in para II of your letter under reference to submit the enclosed proposal of Mr Hall for reconstructing a Mandapam, on the site marked B in drawing accompanying for the orders of Government —

I have the honor to be,
Sir,
Your most obedient Servant

John Campbell Colonel
Chief Engineer of Mysore

Copy of Dewan's Memo recorded on the D.P.W Secy's O.M. dated 3rd July 1902. re Memorial at Srirangapatam

---

I have seen this place more than once and studied the local wants. I have also consulted the people most interested in it. It is difficult to say that this cost has been and is incurred to supply a real want. It is not quite convenient to the inhabitants of the place as it is at one end of the town and I have

O.M. No. 60 Encl
Inst 26-96

Forwarded to the Secretary to Govt., P.W. Department.

By order

July 1902 — sd/ L. Anantasamilar
Off. Secy to Govt

been more than once
informed that the
present bathing place
is the most convenient
for them. For strangers
the accommodation
provided is not suited
to the ordinary class
of people who come
to bathe in the river.
The so called Musafer-
-Khana is a high
class building with
limited Kitchen ac=
=commodation which
is suitable to high
class and well-to-do
men. A large bathing
ghat is out of place
and without doing
some work for diverting
the stream in the
hot weather the
river at the foot

of the ghat will be
a dry bed. But a
very costly bridge
has been erected
and without a ~~great~~ ghat
the expenditure already
incurred will be a
sheer waste.

Another objectionable
feature is the use of
the temple stones for
which very extensive
mantaps of Nara-
simhaswami temple
were demolished.
was stated by Mr
Ranga Rao Ex: Engineer
that no one visited
the temple - but on
both the occasion
of my visit there
were loud complaints
of the people - and

it is beyond doubt
that such works of
destruction even
when prompted by
good and charitable
motives of providing
a ghat in a sacred
river do not secure
the people's approval.
It is a pity for this
commemorative work
these stones were
ordered to be used.
I hope the Secretary
will assure himself
that permission for
this was given by the
late Dewan or the
Mysorai Secretary.
It is now impossible
to restore these ancient
works. But the remedy
which is near at

to it is to repair the
main temple in such
a way that it may
become weather proof
and continue in a
sound condition
for some time more.
An estimate for
this and also for
improving the
building in such
a way as to throw
more light and
air into it should
be prepared. The
amount required
to carry out this
work must be saved
out of the estimate
for the Ghat. The
Mantapam over the
Ghat must for

the present be abandoned.
The size of the flat
itself must be
reduced by one half
and the estimates
prepared accordingly.
When these are
submitted final
orders will be
passed and the
work may in the
meanwhile proceed
in accordance with
the views above set
forth.

Enclosure one Plan.

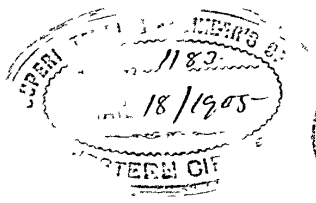
Has the honor to forward here with the plan shewing the site for the construction of a mantapa near the Bathing Ghat at Srirangapatam as requested in his letter RO 1114 Dt 22nd November 1903.

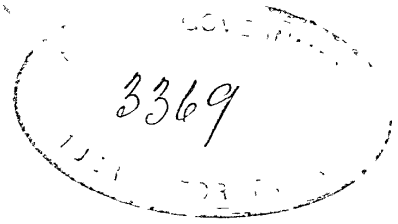
By Order,

Dfh—

Secretary
Muzrai Department

Jr
26/8/04





The Secretary to the Government
of Mysore,

General and Revenue Department

Sir,

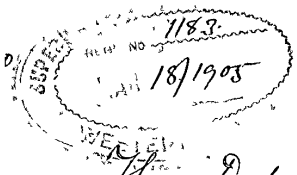
In forwarding herewith the copy
of my letter to the Deputy Commissioner
of Mysore District and also the letter
to my address from the Executive
Engineer Mysore Division, I have the
honor to inform you that being in camp
I am unable to send the copy of the
last Government Order on the subject
the Mantap therein mentioned, as it
left in Bangalore.

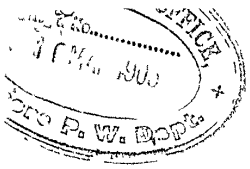
The subject being an urgent one
I am obliged to address you without it
reference may be available in your
the file of the late Maharaja

As the subject is fully
the Deputy Commissioner's letter, I have
refrained from repeating the same.
I therefore request that you will be good
enough to send urgent orders to stop the
work and rebuild the Mantap on an
undisputable site a little west to the
present one

The site that was shown to me by
the late Assistant Engineer, Duggappaiah
has been appropriated for another
Mantap, and I am not aware under
what circumstances the site shown to me
has been changed.

I have the honor to be,
Sir,
your most obedient servant
[illegible]
Retired Khedda Superintendent





The Deputy Commissioner,

Mysore District.

Sir,

I have the honor to inform you that a Stone Mantap was built at the bed of the Cavery River at Sreerungapatam at a cost of nine thousand rupees by my ancestors. Without any notice to me or to the members of the family, the same was demolished to make room for the new steps built in memory of His Highness the late Maharaja

A complaint has been preferred to the Govt against this arbitrary action on the part of the D C [illegible] and on order passed remarking about the conduct of the officers directing that the Mantap should be rebuilt at the cost of the Government according to the former plan

On the 10th of this month, I visited Sreerungapatam and saw the foundation

aid out for
bring to your notice that it is being
in front of a burial ground.

The object of the Mantap is to take the
od Sree Runganatha Swamy and worship
ce in a year in that building

If the building is built on the present spot
t is objectionable to convey God and worship
ear the burial ground.

on the same subject I addressed a letter
to the Executive Engineer who is in charge of the
work. Copy of his reply is herein enclosed. From
this you will observe that your predecessor seems
to have selected this spot without consulting the
owners. I take objection to this site. If the Mantap
is built on this ground myself and other members
of the family decline to take charge of it. Some
time back Mr. Durgappaiah, Assistant Engineer
had selected a site immediately to the east of
the Sopan, but I now find that this has been appropriated
for some other Mantap. I have also addressed
to Government on the same subject.

If your predecessor had given us notice
to be present at the time of selecting the site
we would have gladly done so I therefore
request that you will be good enough to
send an urgent letter to the Executive
Engineer to stop the work and build the
Mantap a little further to the west of this pres

ground.

I am also afraide that eventually the owners of the burial ground may dispu. for God's procession in front of it. At prese I am not aware who are the owners of it It. left to the authorities to enquire about it

I have the honor to be
Sir,
your most obedient servan

Sir,

I am directed to forward herewith Letter No. 6438/3369 dated 27th February 1905 from Mr K. Shamiyar, Retired Kheddah Superintendent in Mysore complaining that the mantap ordered to be re-constructed at Srirangapatam in lieu of the one dismantled by the P.W Department is being ~~constructed~~ built up in front of a burial ground and praying that the work may be put a stop to and the mantap built

a little further to the
west of the present site
avoiding the frontage of
the burial ground - I am to request that
you will be so good
2. ~~The Chief Engineer~~ kindly ~~is requested to Consider~~ as to kindly cause
the objection raised
before further progress is
made in the work and
favor the Government with
a report on the matter.

I have &c.

Chief Engineer of Mysore.

&
T. Narasimhaswamy Esqr B.A
Secretary to H. H. the Maharaja of Mysore
Finance Department.

Sir,

With reference to your letter No 3422 of the 15 ultimo, forwarding for consideration and report, Mr. Ramiengars letter No. 6438 dt. 27th February, objecting to the site on which the mantap is now reconstructed at Seringapatam for reasons advanced therein, I have the honor to forward the enclosed copy of Mysore Div. Executive Engineers No 217 of the 21st ultimo, (which is endorsed) reporting that he has stopped further work and selected another site for the mantap, as the objection taken by Mr Ramiengar is valid and to inform you that on receipt of the Deputy Commissioners approval to the site now selected, the mantap will be built on it.

II

Mr: Shamiengar's letter and enclosures are herewith returned.

Yours very obedient servant

W Smith Captain RE

Docket No 217 of 21st March 1905 from the Executive Engineer, Mysore Division to the Superintending Engineer, Western Circle

---

Superintending Engineer's No 1328 of the 18th instant, forwarding correspondence from the Secretary to the Government of Mysore, Marine Department, regarding objections taken by Mr Shama Iyengar to the Construction of Mantapam at the site approved by the Deputy Commissioner

---

In returning the original reference has the honor to submit herewith the copy of this office No 72 of 26/2/1905 to the Deputy Commissioner, Mysore District, on the subject for information

The present site was selected by the Executive Engineer, late French Rocks Division and approved of by the Deputy Commissioner The construction of the mantapam was put in hand and foundations filled in But Mr Shama Iyengar took objection to the mantapam being built on this site on the

grounds

ground that it is in front of a Sannyasis' Brindavana or burial place the undersigned inspected the spot with Mr Krishna Iyer, Honorary Assistant Engineer, and found it to be a fact He has therefore stopped further construction and selected another place which is the original site of the Mantapam The Survey plan showing the originally approved and the proposed site was forwarded to the Deputy Commissioner for approval This has not yet been received from the Deputy Commissioner and he is being reminded The Honorary Asstt Engineer gave the undersigned to understand that Mr Shamia Iyengar has no objection to the proposed site The result of the Deputy Commissioner's reply will be communicated on receipt

W L Caddell Captain R E
Ex Chief Engineer of Mysore
1/4

From

The Executive Engineer

Mysore Division

To,

The Deputy Commissioner

Mysore District

Dated 26th February 1905

No 72/Encl 2

With reference to his no 127 of 9/11/04 approving the site proposed for constructing Mr Kheda Shama Iyengar's mantapam at Seringapatam, has the honor to inform that Mr Shama Iyengar has since taken objection to the mantapam being constructed at the approved site on the ground that it is near the burial ground of a sannyasi and as such, is unfit in religious point of view for the worship of God which is usually done once a year Copy of his Shama Iyengar's letter dated 12th instt is forwarded herewith for information.

II The tracing of Survey plan showing the bathing ghat constructed, the original site of the mantapam and the site approved

approved, to which objection is now taken, is warded herewith for reference It will be seen at "A" was original site of Shama Iyengars entrance which was dismantled for the tension of the bathing ghat and "C" is the be approved by the Deputy Commissioner.

The undersigned inspected these sites on 23rd instant, and found that the objection taken by Mr Shama Iyengar is reasonable wants the mantapam to be built at the original site marked in red line at "A" and e undersigned sees no objection to the same ing adopted in preference to the site "C" sinc bathing ghat will not be extended as was originally designed

Very early approval to the proposal is equested as the work is stopped at the request Mr Shama Iyengar to prevent further sputes The bracing plan may be obligingly turned
